Language is God's boon to Man,
Speaks fluently only the Man.

Living beings do make sound,
Man has made speech from sound.

Man started with the word,
When word is spoken came new world.

With word was created name,
With word and name life was not same.

Sentences were made from words,
Man's world became full of words.

Language then grew to full form,
With language Man went beyond the norms.

Brain grew, grew, grew and grew,
With memory Man remembered old and new.

With language imagination came,
Then man played creativity game.

Man was great with spoken word,
Man is great with the written word.

Writing opened real flood gate,
Literary record grew at high rate.

History was written and stories too,
Poetry was written and songs too.

Pictures were created with letters and words,
Understanding became deep with words.

Man also played number game,
With numbers it is logical game.

Mathematics became language of science,
Man used figures, alphabets, signs.

At first language was man made,
By language better man was made.

Letter spirit are enjoyed by Man,
In each letter is the spirit of Man.

Computer languages then came soon,
For science it is real big boon.

Man asked God then now what,
Beyond language is there what ?

To man, spoke the inside ideal of God,
Beyond language is language of God.

Silence is really language of God.
