Death
22.07.1993

Man asked

God ! tell me what is death

God ! tell me how is death

God ! tell me when is death

God ! tell me where is death

God ! tell me who is death

God ! tell me why is death.

God replied

Man ! if you wish to know the death

Then you must know birth, life and death.

Life is a sentence written on time

The paper on which written is time.

The beginning of sentence is the birth,

Capital letter "I" comes along with birth.

Each word is the stage in life,

There is a link between stages of life.

Word is made by when letters are joined

Stage is made by when steps are joined.

Each letter is important sure

Each step is important sure.

With proper letters meaningful words are made

With proper steps meaningful stages of life are made.

Between the words the space is there

Between the stages the gap is there

A space is preparation for word, next

A gap is preparation for stage; next

When words put together sentence is made
When life stages put together life is made.

At the end of sentence is the full stop
At the end of life is the death, stop.

Between start and stop the sentence is
Between birth and death the life is.

The essence of secret is the meaning sure
The essence of life is the spirit sure.

Meaningful sentences makes sentences work
Meaningful life make the life worth.

Let sentence you write be a beautiful one
Let the life you live be a beautiful one.

The message is the sentence's aim
The spirit you leave is life's aim.

Let the sentence be valuable to world
Let it give spirited service to the world.

Let the life be valuable to work
Let it give service to world

When sentence ends only paper left
But the messages are forever left.

When life ends only time is left
But the spirit is forever left.

When one sentence ends the next one starts
When one life ends the next one starts.

Sentences end but the meaning continues
Lives end but the spirit continues.

The next sentence is continuity in time
The next life is the continuity in time

Between the sentence is a resting time
Between the lives is a resting time.

In the continuing of meaning the message is
In the continuing of service the spirit is.

Each sentence is the result of preceding ones
Each life is the result of preceding ones.

Each sentence is preparation for succeeding ones
Each life is preparation for succeeding one.

The writing ends when book is done
The journey ends when full work is done.

So when your body dies it is only sentence's end
For the story relay that is not end.

Let your story be a well written book
Let your story be an open wonderful book.

So man! now let me answer straight
Hear and take it to your heart straight.

Man ! Death is a full stop that you know
Man ! as per life the death you know.

Man ! when meaning is full death you know
Man ! wherever meaning ends death you know.

Man ! I am the death that you know
Man ! because of birth death you know.

**Man writes sentences
God writes lives.**
