

Empowerment

03.02.1997

MAN ASKS

God ! Empowerment is new Management
with Empowerment “I will” and not “I may”

Empowerment energises men
Empowerment creates leader of new Management

GOD REPLIES

My dear man ! “to give” is not Empowerment
My dear man! “to take” is not Empowerment

You are already Empowered as it is see !
No one else has to empower you, you see

Your body is the container, the content is me
Spirit within you is ultimate power you see.

“Shakti” is the physical power of you
with strength contributive work you can do

“Yukti” is the intellect power within you
with creativity, better work you can do

With four powers multi-man you are
Ready-made empowered man you are.

Consciousness is me energy is material world
Spirit is me and matter is material world.

Delegation is power to decide to do how
Empowerment is power to decide what and how

God ! what is your view on Empowerment
what is your way of Management.

There is nothing to “give & take” in Empowerment
To realise is the real Empowerment

Embodied-power is the Empowerment
To contain divine power your body is meant

You have limitless power within you
To know that is Empowerment for you.

“Bhakti” is the mind power of you
with devotion, dedication work you can do.

“Mukti” is the liberation power within you
with detachment, “seva”-service you can do.

There is nothing new in Empowerment
This creation itself is an Empowerment.

Eminence is me and power is material world
Empowerment is management process that runs the
world.
